## Technical Rider: stageplan + monitoring

Hello dear technicians!

This rider is intended to help all of us ensure a smooth event.

If you have any technical questions, please feel free to contact Marcus Friedeberg by telephone, +49 (0) 171 – 3413097 (preferably also via Whatsapp) or by e-mail to [marcus@friedeberg.net](mailto:marcus@friedeberg.net) . Thank you!

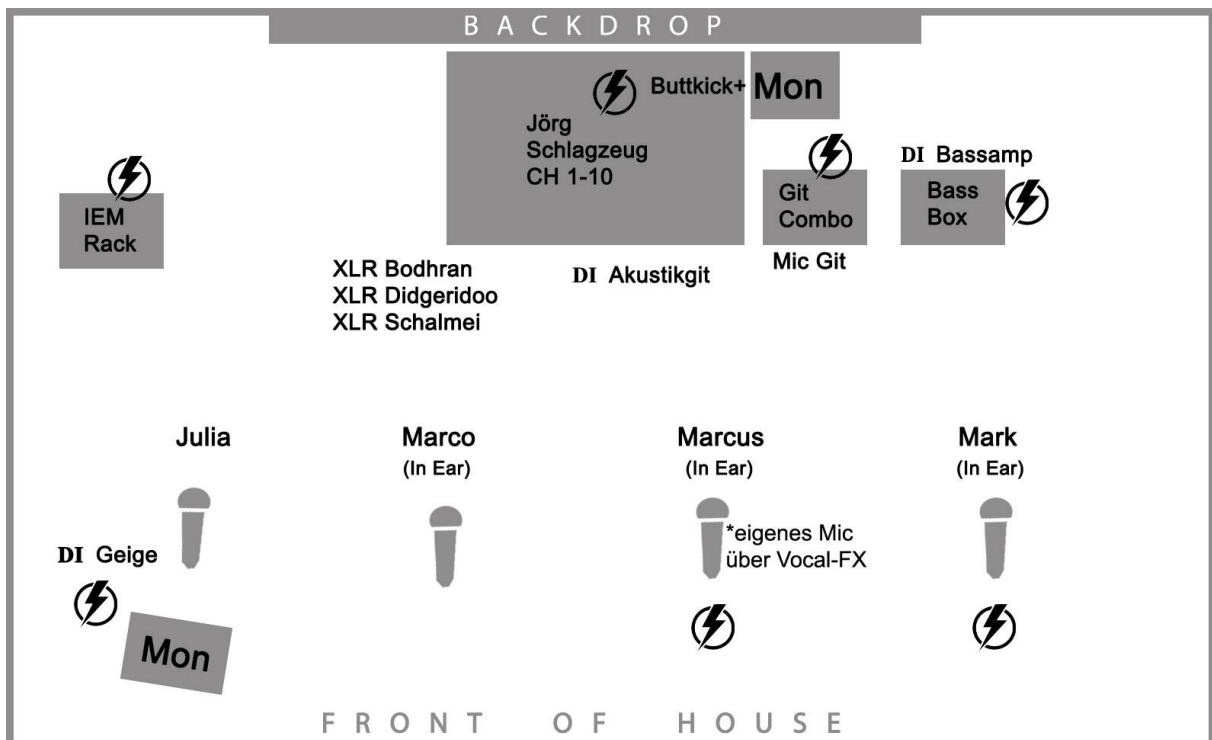

Off Limits travel without their own technician.

Number of musicians: 5, music style: folk rock

We come with our own drum kit. However, our set up and conversion is very quick.

Ideal for the drums: Drum raiser 2x3m.

The center vocals (Marco+Marcus) are equal, both lead vocals. The lead vocals vary from song to song between the two center microphones.
